SEMIAUTOMATIC
GAS KIT 2 gr

Etnica semiautomatic 2 groups is also available with the GAS Kit.

It is particularly useful in Countries or areas with high electricity costs or unstable power supply. One major advantage is that you can easily connect the machine to a battery via an inverter, since electricity is only required for the pump, the group solenoid valves, and the control board. Once the boiler pressure reaches the set value, the gas kit maintains it by keeping the flame stable, ensuring the same consistent brewing performance as the Etnica semiautomatic 2 groups without the gas kit.

Strumenti per l'Espresso

TECHNICAL FEATURES	SEMI AUTOMATIC 2gr
Espresso coffee and cappuccino machine with thermosiphon system	
E 61 brewing groups (filter holder Ø 58 mm)	●
Frame of pure polished super-mirror and satin-finished stainless steel AISI 304. Finishing of transparent methacrylate	●
Flanged copper boiler with tap for manual discharge, copper pipes and brass pipe fittings	●
Dual gauges for boiler and pump pressure	●
Manual and automatic boiler water loading	●
Built-in RPM motor pump with WATER cooling / Fluid-o-Tech rotary pump	●
1 electromechanical button for every group for brewing choice	●
Glass tube for boiler water level	●
2 multidirectional stainless steel steam wands with manual control from the tap knobs	●
1 multidirectional stainless steel hot water wand with manual control from its dedicated button	●

OPTIONAL ON DEMAND	
External motor pump (air cooling)	●
Raised groups	●
Cappuccino maker / Milk frothing wand	●
White filter holders for 1 and 2 cups	●
Nut wood kit: filter holders and knobs	●
Color options and aesthetic customisation	●

TECHNICAL DATA	2 gr
Voltage/Power	120 V (1F) 220 - 240 V (1F) / 380 - 415 V (3F)
Frequency	Hz
Boiler	L
Width	mm
Depth	mm
Height	mm
Net weight	kg
